

Supporting Current Operations JSA Group

Program Name: Supporting Current Operations

Objective: Where appropriate, assist/share/collaborate on analysis required to support current operations. Areas covered include; data, models/techniques, analysis itself and results.

Payoff: Timely, more complete, and higher quality, analysis/courses of action were provided to senior decision makers (and the units being deployed) at critical points. TTCP channels used to pass some operational information.

Participants: Varies according to the operations being supported. (For Kosovo, Canada & U.K. collaborated in such a manner.)

Future Activities: As required.
